Available Glass Types

Hose Reel Drum manufactured from steel on hydraulic press with forming of ribs to give extra strength and avoid twisting. The outer rolled over to give a safe handling edge on the outer rims and better appearance.

Hose is made of rubber with working pressure 20 bars and bursting pressure 60 bar with standard red color

Cabinet Door Handle is Recessed type made of S. Steel base and turn handle chrome plated.

VALVE 1.5" size with 45° angle Brass Chrome finish

Nozzel available in the three types:

- ◆ **Plastic nozzle** three way to control with straight, spray and stop functions.
- ◆ **Brass with chrome** plated two ways to control with straight and stop functions.
- ◆ **Brass nozzle** plated Three ways to control with straight and stop functions.

Painting for cabinets is done by electrostatic power paint oven backed to temperatures between 160-200° C, for steel cabinets only to protect from Rust and to give good finish Painted red and other colors available upon request. Stainless steel Cabinets with hair line finish and mirror finish also available.

Operating Instructions are silk screen printed in English and Arabic language inside the cabinet doors.
